

USB-C

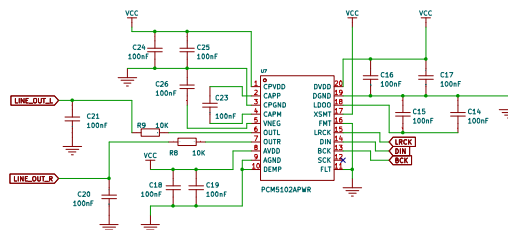

ESP32

Buttons

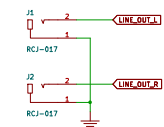

Voltage Regulator

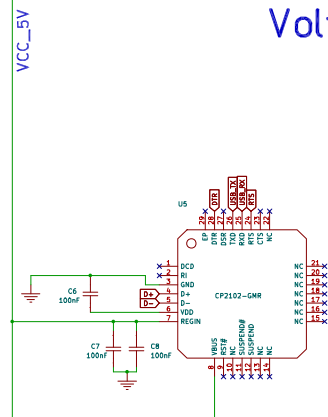

DAC

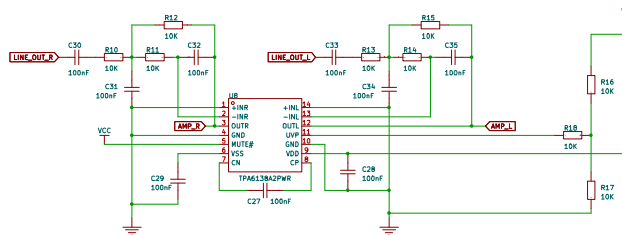

3.5mm Headphone Jack

Dual RCA Input for Line Out

USB to UART

Headphone Amp

HD Audio can be transmitted via bluetooth (AAC) to the ESP32 module
The ESP32 module routes audio to the PCM5102 DAC
The DAC passes audio along to the TPA6138A2 Headphone Amp
The DAC outputs (line-level) to RCA jacks and the amp outputs to a 3.5mm jack
